  - Bunch of technologies and features.
  - Features-features-features.
- 

## SKILLS

Ruby, Rails, React.js, Redux, Javascript, jQuery, Flux, SQL, HTML5, CSS, Bootstrap, Git

---

## EXPERIENCE

### Operations Manager (VK Import)

January 2015 - November 2016

- Joined a food importing start-up at its very beginning which goal was to introduce the US market to the best and stand-out Ukrainian food products. Took part in creating a proper business plan and development strategies leading to \$2 millions of sales during the first year.
  - Represented company on many levels of business negotiations, expos and events creating and broadening suppliers and customer network.
  - Besides strategic planning, I was also responsible for the warehouse management, establishing strong work ethics, coordinated assembly and dispatch of orders, making sure that employees are trained and self-sufficient.
- 

### Co-Founder (HEYDAY Brand)

May 2014 - June 2015

- Co-founder of Ukrainian youth clothing brand and was responsible for its emergence in North America.
  - Along with my business partner worked through all stages of the formation of the brand, from concept to production of the final product, generating more than 300K in growth during the first year.
  - Developed and implemented marketing strategies and methods to increase brand's awareness and recognition reaching out a larger number of satisfied customers.
-
